These ceramic candle holder with lid come in different colors and sizes, we can customize the **ceramic candle holder** according to your requirements

Black gold blue pattern [ceramic candle holders with lid](#)

Blue - Gold Radiant [ceramic candle holders with lid](#)

The matte black ceramic jar body is elegantly stylish, with a built-in glass liner to hold the scented wax—heat-insulating, leak-proof, and easy to clean; the black-gold-blue geometric-patterned lid is the finishing touch, with its retro totem exuding artistic flair.

Your logo can be designed with exclusive label on the **candle jars** for your brand

01 Samuel from United States

Samuel is from an aromatherapy company in Canada. He has purchased **candle holders** from Sunny Glassware for several years, and we often discuss some candle holders. In the second half of last year, they were going to launch a new ceramic candle holder. This time, the ceramic candle holder was purchased from an American manufacturer due to time constraints, but they were not satisfied after receiving the samples. The screen printing logo on the ceramic candle holder is unclear and broken. Their master craftsmen inspect every detail and find no problems. Samuel contacted ceramic suppliers, but also received no positive suggestions. A week has passed without any progress, and the boss is also very anxious.

Samuel thought of [Sunny Glassware](#). Sunny Glassware had also solved some problems of ceramic candle holders in the past few times. According to Samuel, the master craftsman of Sunny Glassware provided ceramic candle holder design drawings and previous samples. One day later, our master found out the problem. There is a high probability that there is a short-term problem with the screen printing. Samuel does not believe it, because this ceramic candle holder comes from an American factory, and they also tested it separately, and there is no abnormality.

Sunny Glassware can redesign this ceramic candle holder and send out samples within 3 weeks. If the ceramic candle holder of Sunny Glassware also has this kind of problem, we will refund the trial order fee. Samuel felt that there was no risk, and maybe this was also hope. After 3 weeks, we sent out the sample list. After receiving it, Samuel was surprised that Sunny Glassware newly designed [ceramic candle holders](#) were more powerful than their American manufacturers. They admired Sunny Glassware for finding and solving problems.

Sunny Glassware is willing to solve every problem about candle holders and has accumulated a large number of cases. Samuel told privately that the sales of this ceramic candle holder were very good once it was released. Samuel said that the ceramic candle holders made by Sunny Glassware are more powerful than American manufacturers, and you can also try a small order!

02 Peter from UK

Other factories can't make the kiln-changing glaze process of [ceramic candle holders](#), and Sunny Glassware factory has successfully proofed twice

Peter from the UK wants to purchase a batch of ceramic candle holders. The core of the difficulty of this type of ceramic candle holders lies in the processing of kiln glaze, and most factories have no choice. The Canadian ceramic candle holder manufacturer that has been cooperating with failed 5 samples in 30 days and had to surrender. Peter found more than 25 [ceramic candle holder](#) manufacturers online and offline at home and abroad, and either replied that there was no time to sample, or there was no response. After tossing and tossing for a week, Peter became a little disheartened.

Later, after searching on the Google website, I found Sunny Glassware website. Peter sent an email to Sunny Glassware immediately after seeing the website. After learning about Peter's purchasing problems, Sunny Glassware suggested that he send Sunny Glassware the style of ceramic candle jar he wanted to have a try. Sunny Glassware is willing to do this kind of kiln-changing glaze processing problem. Once it is solved, Peter will admire Sunny Glassware.

According to the style of [ceramic candle jar](#) sent by Peter, other requirements are standard except for kiln glaze processing. The kiln glaze processing of this type of ceramic candle jar is different from conventional ceramic candle jar. The kiln glaze color is gorgeous and varied. Difficulty, high precision requirements. ceramic candle holder manufacturers without high-precision equipment and experienced craftsmen with more than 20 years of experience failed even if they tested 100 times.

Sunny Glassware factory technical team discussed internally for 2 days, and they are 80% sure that the sample will be successful. Although Peter is a bit disappointed, it is also the best news I have received recently, an urgent order for the kiln-changing glaze process of this ceramic candle holder. Sunny Glassware brainstormed for a week, adjusted the process parameters, and sent out the kiln glaze sample of the first ceramic candle holder. Peter informed 5 days later that there was a 0.5% error in the color of the kiln-changing glaze of the ceramic candle holder. Sunny Glassware made the second kiln-changing glaze sample of the ceramic candle holder. Under the high-precision re-optimization process, the similarity of the color was improved. A few days after Sunny Glassware sent out the second kiln-changing glaze sample of the ceramic candle holder. Peter received an email, saying that there was a 0.1% error in the color of the kiln-changing glaze of the ceramic candle holder. but he was very satisfied with the sample this time. Because the texture and color of the kiln glaze processing technology will change, it cannot be completely unified. The kiln-changing glaze process of this ceramic candle holder, the Canadian manufacturer spent 4 weeks, and the 4 samples failed. He tossed for a week and did not find a manufacturer who dared to sample the kiln-changing glaze process of the ceramic candle holder, but Sunny Glassware succeeded in 2 proofing within 2-3 weeks.

Sunny Glassware high-quality and high-precision samples are the core of success. Sunny Glassware Products has a 20-year history of glass and ceramic products, and various products are exported to more than 30 countries and regions. The key to the success of the Sunny Glassware sample is the old technicians in our factory, who have more than 20 years of practical experience and have unique skills in ceramic technology.

The kiln-changing glaze process of [ceramic candle holders](#) can also be produced, and you can also try a small order!

03 Kelly from United States

After visiting the ceramic factory, customer Kelly highly recognized the product quality of [Sunny Glassware](#)

Recently, Kelly made a special trip from the United States to China to participate in the Canton Fair. During the Canton Fair, Kelly visited the ceramic candle holder factory of Sunny Glassware Products and highly recognized the quality of the [ceramic candle holder](#) products.

Frank, the CEO of Sunny Glassware, led the sales and QC teams to accompany Kelly to Chaozhou Ceramics Factory for a comprehensive visit. A factory specializing in the production of ceramic products, it has maintained a close cooperative relationship with [Sunny Glassware](#) for many years.

During the visit, Kelly had a detailed understanding of the factory's production equipment, raw material procurement, and production processes. Full of praise for the experienced R&D team that continuously researches new production processes and materials and efficient production processes and strict quality control systems. At the same time, Kelly was pleasantly surprised by the new design of Sunny Glassware candle holder, which was novel and fashionable. Sunny Glassware Products has a professional team. Sunny Glassware award-winning designer team has won the trust of NEST. It is difficult to find another one in China. Comparable, with rich experience and professional knowledge, there may be no second company in the country

After the visit, Kelly had an in-depth exchange with the Sunny Glassware team. The two parties discussed the details of future cooperation and reached a long-term cooperation agreement. Sunny Glassware will be Kelly's preferred primary supplier for the production of ceramic candle holder orders.

[Sunny Glassware](#) is an enterprise specializing in the production of glass products and ceramic products. The company has been committed to providing high-quality products and excellent services, and has won the trust and recognition of our customers. With Sunny Glassware strong support, customers rapidly develop and from small workshop to industry leaders. The long-term cooperation with Kelly will further consolidate the position of Sunny Glassware in the ceramic products industry, and also open up the European and American markets.
