This Christmas [glass candle jar with a lid](#) is inspired by the classic Christmas tree. It is made of high-quality glass and crafted through a special process to create a striking metallic orange-red luster. With a multi-layered tower structure and a retractable design, it serves as both a warm candlestick to brighten up the festive atmosphere and a creative Christmas decorative storage item, adding a unique sense of ceremony to the Christmas season.

Your logo can be designed with exclusive label on the candle jars for your brand

Our Clients

01 Hellen from Singapore

Hellen is the purchaser of a Singapore company, and has been purchasing glass candle jar from **Sunny Glassware** for several years. In the second half of last year, Hellen emailed that he would be the general manager of the Hangzhou branch in a month, and visited Sunny Glassware . Hellen has been doing procurement for 5 or 6 years, and this promotion must have made a contribution. Some time ago, their company placed an order for a batch of [glass candle jar](#) , and found cracks during testing. Their designers thought that there was a problem with the formation of nodules in the glass candle jar , but it was normal when tested alone. The designer was at a loss, and the boss was also very anxious, so he asked Hellen to consult with a glass candle jar manufacturer.

This glass candle jar is produced in a local factory in Singapore. After on-site analysis by the master of the original factory, it is believed that the cracks are due to the presence of inhomogeneous, high-viscosity, and high-surface-tension glass bottles in the glass liquid formed during the blowing process of the glass candle jar. Changing the inhomogeneity in the glass solved it. After 20 days, according to this plan, there were indeed no cracks, and the boss was very happy and promoted him. However, after calculating the cost, it was found that the cost had increased by 20%. Obviously, this solution is not optimal, so Hellen wondered if there is any other solution, so he contacted Sunny Glassware . Sunny Glassware received the design drawings of their glass candle jar, and the masters of Sunny Glassware Factory began to analyze them.

Three days later, the plan of Sunny Glassware Candle Holder came out, which was to extract the sundries of glass in the glass candle jar. This new design will not increase the production cost of the glass candle jar, that is, the zero cost solves the vibration. Hellen was a little unbelievable, so Sunny Glassware made a sample immediately. A week later, Sunny Glassware sent the glass candle jar. After debugging, there are also no cracks, but 0 cost. The boss of Hellen was happy to save 20% of the cost, and asked Hellen to send any inquiry for glass candle jar to Sunny Glassware as soon as possible.

Hellen told privately that the boss is very satisfied that he solved the problem with 0 cost, and he deserved the position of general manager of the Hangzhou branch, and he is working harder and harder.

Sunny Glassware has a history of 20 years in glass products. It gives priority to solving problems at zero cost. You can also try a small order!

02 David is from England

David is from the UK and works as a buyer in a local company. In March this year, he urgently needs to purchase a batch of glass candle jar. David browsed the website of Sunny Glassware on Google and found that Sunny Glassware has a history of 20 years of glass products. , All kinds of products are exported to more than 30 countries and regions. Send an email to inquire about Sunny Glassware : About the glass candle jar design draft and inquiry that you want to purchase now? After seeing this email, I asked David to send me the design drawing of the glass candle jar. The glass candle holder design sketch sent by David needs to be water-transferred for color adjustment. Since the color is more special because it is a mixture of multiple colors, I told this to the company designer ROY. With his help, within 2 days I made technical drawings and rendered several color processing effects within a few days, and sent the drawings to David.

Three days later, David sent an email, and sent a drawing of the most satisfactory rendering color, asking us to make a proof according to this drawing. Send it to the factory for proofing, and the experienced Sunny glassware craftsman worked hard on the color of this glass candle jar, yellow, blue, white, the color is purple and the effect is different when viewed from the inside of the glass. Exquisite.

Five days later, David, who received the samples, recognized the craftsmanship of Sunny glassware. They had found several local processing factories, but after three times of proofing, the color did not match the desired color. Sunny glassware are solved at one time. David and his team members agree on the craftsmanship of Sunny glassware. On the same day, David placed an order for a batch of glass candle jar for Sunny glassware.

The values of Sunny glassware are: Resolute quality, at least 6 more inspection procedures in QC than the peers, and there have been no quality complaints for 9 consecutive years. After strict quality control, the shipment was sent to the UK. David also told that this glass candle jar is a big hit in the UK, and sales have more than doubled. His boss was very satisfied with his purchase, and that all future glass candle jar would be to Sunny glassware.

Sunny glassware glass candle jar water transfer printing coloring process, you can also try a small order!

03 Niki is from America

Niki comes from a scented candle company in the United States. He has been purchasing candle holders smoothly. He fell down when he purchased glass candle jar last year. At the end of last year, a batch of glass candle jar ordered in Vietnam had wrong printing colors and blurred patterns. Niki was very dissatisfied with such glass candle jar. Five months later, this glass candle jar will be on display. Niki contacted the supplier in Vietnam, and the other party agreed to replenish the stock. A week later, the sample was received, but the color was wrong again, and the same accident happened again. At this time, Niki realized the problem. No one could accept the long-term and high-frequency after-sales service, so he had to find a new glass candle jar manufacturer.

Niki left a message on Google for the Sunny Glassware website: Can you ensure that each glass candle jar has the same color and no quality abnormalities. Sunny Glassware replied, I don't care if it's good or not, you'll know after you try it. The next day, Niki sent an email to Sunny Glassware to send the desired glass candle jar artwork. I told him that glass candle jar has a 20-year history of glass products, and various products are exported to more than 30 countries and regions.

The sample was quickly sent out 2 weeks later. After Niki received the sample, he sent an email to express that he was very satisfied with the glass candle jar of Sunny Glassware. It not only solved the color tone problem but also solved the blurred pattern. Niki immediately placed a large order of 30,000 glass candle jar from Sunny Glassware candle holders manufacturers.

Sunny Glassware automatic silk screen printing process has a history of 20 years, and QC has at least 6 more inspection processes than its peers. There have been no quality complaints for 9 consecutive years. Whether in terms of craftsmanship or quality, most manufacturers cannot do it.

Niki told me privately that the boss appreciates that he can find a reliable glass candle jar manufacturer like Sunny Glassware this time, and the boss will give him a salary increase.

The automatic silk screen printing process of glass candle jar, Sunny Glassware convinced American customers, you can also try a small order!
